

# PROJECT PLANNING PHASE

## MILESTONE & ACTIVITY LIST

DATE	10 November 2022
TEAM ID	PNT2022TMID14456
PROJECT NAME	PLASMA DONOR APPLICATION

MILESTONES	DESCRIPTION	DATE
<b>Literature Survey</b> <small>(ASSIGNED TO TEAM MEMBER: SOWMIYA E)</small>	Literature Survey is the collection of facts and information from recognized authors and articles. Our literature survey focuses mainly on the growing demand of blood plasma and ways to satisfy the demand through an application that interacts with users to find a donor.	12 October 2022
<b>Empathy Map</b> <small>(ASSIGNED TO TEAM LEADER: P. SOWMIYA)</small>	Empathy map is an easy to convey visual about the user's mindset regarding a particular issue. As of our case, it describes the problems and mindset of people who are in need of blood plasma during an emergency.	12 October 2022
<b>Brainstorming and Idea Prioritizing</b> <small>(ASSIGNED TO TEAM MEMBER: SHAMITHA R V)</small>	Brainstorming is the collection of ideas from all members in the team to arrive to a solution for solving a problem. On other hand, prioritizing those ideas helps to find the most needed and common ideas among the team members.	12 October 2022
<b>Proposed Solution</b> <small>(ASSIGNED TO TEAM MEMBER: SOWMIYA E)</small>	Proposed Solution is made in response to the needs of the customer, providing a solution to the problem with uniqueness thereby satisfying the customer needs.	12 October 2022
<b>Problem-Solution Fit</b> <small>(ASSIGNED TO TEAM MEMBER: SHAMITHA R V)</small>	Problem-Solution Fit actually verifies if the proposed solution matches with the customer problems considering the behavioural patterns of the customers. It helps entrepreneurs, marketers and corporate innovators to recognize what would work and why.	12 October 2022
<b>Solution Architecture</b> <small>(ASSIGNED TO TEAM MEMBERS: SWATHI N)</small>	Solution Architecture is an intricate process with many branches that connect the space between users' problems and technology solutions.	12 October 2022
<b>Customer Journey</b> <small>(ASSIGNED TO TEAM MEMBERS: SWATHI N)</small>	Customer Journey is the interaction of the customer with the product features. Out here, our customer feels free to have direct and indirect interactions and queries regarding our application.	20 October 2022

<b>Functional Requirement</b>  (ASSIGNED TO TEAM LEADER: P. SOWMIYA)	Functional Requirements describe for the user, the methods to have ties with the application. i.e., account creation methods for the first login, etc. Also assures many Non- functional Requirements like security, reliability, etc.	19 October 2022
<b>Data Flow Diagrams</b>  (ASSIGNED TO TEAM MEMBER: SOWMIYA E)	Data Flow Diagram visualizes how data moves inside the application through pictorial representations using shapes and symbols.	20 October 2022
<b>Technology Architecture</b>  (ASSIGNED TO TEAM MEMBER: SHAMITHA R V)	This is where all the technological requirements, including both Software and Hardware facilities are sequenced in a proper format like in the Solution Architecture.	20 October 2022
<b>Prepare Milestone and Activity List</b>  (ASSIGNED TO TEAM MEMBER: SHAMITHA R V,& SOWMIYA E)	<b>Milestones provide a way to more accurately estimate the time it will take to complete your project by marking important dates and events, making them essential for precise project planning and scheduling.</b>	10 November 2022
<b>Sprint Delivery Plan</b>  (ASSIGNED TO TEAM MEMBER: SHAMITHA R V,& SOWMIYA E)	Sprint Delivery Plan means to split the project output to phases called sprints to deliver accordingly at scheduled time. This may be very much useful as each Sprints are carefully reviewed for perfection. This reduces flaws during submission.	10 November 2022
